

FOR POOLS
up to 85m³

OPERATES
from -25°C to 43°C

ARTICLINE Fi

ARTICLINE Fi

Efficient even at -25°C

- Full Inverter technology
- Exclusive Heavy tech compressor
- Design front in powder coated steel
- Indicative LED
- WiFi connection integrated

HEAT PUMP WARRANTY

3 YEARS

COMPRESSOR WARRANTY

7 YEARS

**TITANIUM COIL
ANTI CORROSION WARRANTY**

15 YEARS

Pool volume (m ³)	50 - 85 m ³
COP air 15°C /water 26°C	7.58 ~ 4.96
Noise level at 10m (db(A))	<23 ~ <31

TECHNICAL DATA

Swimming pool volume		50-85 M ³
Reference: PC-ALP		155N
Air 26°C Water 26°C Hygro 80%	Max. Power output (kW)	21,42
	Min. Power output (kW)	4,86
	Power consumption (kW)	3,06~0,30
	COP	16.15~6.99
Air 15°C Water 26°C Hygro 70%	Max. Power output (kW)	15,92
	Min. Power output (kW)	3,62
	Power consumption (kW)	3,20~0,47
	COP	7,65~4,98
Air -25°C Water 26°C Hygro 70%	Max. Power output (kW)	8,72
	Min. Power output (kW)	1,98
	Power consumption (kW)	3,46~0,30
	COP	6,61~2,52
Electricity supply		Mono 230V / 50Hz
Heating temperature range		15°C~40°C
Operating range		-25°C~43°C
Max. Capacity (kW)		4,54
Flow (m ³ /h)		7
Refrigerant		R32
Packaging dimensions (mm)		1084x399x737
Dimensions (mm)		1146x460x855
Net/Gross weight (kg)		81 / 96
Noise level at 1 m (dB(A))		<41~<50
Noise level at 10 m (dB(A))		<23~<31
Compressor type		Twin Rotary
Compressor brand		Toshiba
Heat exchanger		Twisted Tech© Titane

E.U. Standard
T.U.V. Certified

Data provided for information purposes only. Can be subject to change without notice.

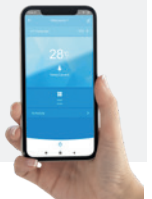

TECHNOLOGY

- Up to **35%** energy savings over 1 year
- Significant acoustic pressure reduction
- Soft start
- Variable frequency compressor & fan

WIFI CONNECTION

Control from your smartphone
Real time indications

INDICATIVE LED

- Green:** target temperature has been reached
- Blue:** the pool is being heated
- Red:** the HP is not in operation

For 2021, the Poolex Articline renews itself by adopting Full Inverter technology and sporting an elegant design.

Specially designed to withstand cold climate, the Articline Fi heat pump is equipped with advanced Full Inverter technology to always bring you more savings. Thanks to a soft progressive start and continuous operation at reduced capacity to maintain the set temperature, the Articline Fi can save up to 35% on energy consumption.

The basic philosophy of the Articline Fi is to solve the problem of heating swimming pools all year round, on 100% of French territory and 80% of European territory. For this, the heat pump is equipped with a 4-way valve and an advanced GMCC

compressor, two essential components of the defrost cycle, used in the refrigeration industry.

All this translates into remarkable performance over very low temperature ranges with an optimal COP of around 7.6 making the Articline Fi the ideal heat pump for mountainous areas or extreme climate conditions. The swimming pool becomes an attraction all year round, whatever the outside temperature, even at -25 °C.

The POOLEX : all accessories included

Isothermal winter storage cover

Maintenance kit & user manual

PVC connectors
Ø50mm 1"½

Extension cord for wired control (10m)

Condensate discharge pipe

Anti-vibration support kit

Delivered on a wooden pallet
