TORPEDO 2P

THE 100% DROPSTITCH KAYAK

Discover the Kayak Torpedo, your passport to adventure. Its ideal size for paddling, combined with its two retractable fins, will enable you to explore the most remote shores.

Made entirely from drop-stitch, this robust kayak is extremely rigid. It offers an unrivalled gliding quality, enabling you to reach impressive speeds quickly.

Equipped for comfort and practicality, the Torpedo kayak features bungee cords, neoprene handles, soft strips, Velcro and an anti-splash system for an optimal boating experience.

DROP-STITCH TECHNOLOGY

Made entirely from drop-stitch, it's extremely rigid and perfect for picking up speed.

LOTS OF STORAGE

From the vertical elastic bands to the interior soft strips, everything is designed to make it easy to secure your lightweight equipment.

QUALITY OF GLIDE

The drop-stitch floor covering ensures that the kayak is robust and glides unevenly for a rapid increase in speed. No risk of an uneven floor slowing you down.
