- Easy connection to 16A power outlet

Step into the world of professional spas with the Netspa Square. Its generous dimensions comfortably accommodate up to 5 people. Settle into one of the 3 deep massage seats or 2 relaxing loungers and **enjoy water heated to 38°C all year round,** along with the various massage modes offered by the Square. Shiatsu, kneading, or pressure massage, choose the one that suits you best, or follow a complete massage circuit across the different seats for total relaxation and well-being. You'll emerge rejuvenated and deeply relaxed, with improved blood circulation and a detoxified body.

Equipped with the best features on the market, **your spa operates autonomously, maintaining both water flow and temperature effortlessly.** Set it down, plug it in, and dive in! Thanks to Plug & Play technology, the Square spa connects easily to a standard 16A household outlet. Enjoy moments of pure wellness at home, with family or friends, in complete simplicity with the Netspa Square.

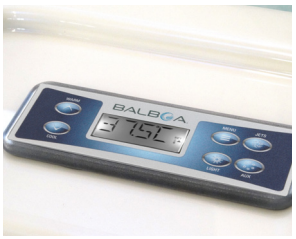

PLUG AND PLAY

Set it down, plug it in, dive in!

Simply connect your spa to a standard electrical outlet and turn it on.

BALBOA TP500 CONTROL PANEL

Backlit control panel

FLOATING SKIMMER

Automatically adjusts to the water level for optimal filtration, no matter how many people are using the spa.

2.2 KW DUAL-SPEED PUMP

With its two operating speeds, it manages both water circulation and the spa's massage functions.

LED LIGHTING

Equipped with perimeter LEDs as well as a central LED spotlight, it lets you create the perfect ambiance for your spa session to match your mood.

Insulated Safety Cover Included

It is essential for maintaining the water temperature by minimizing heat loss, while also securing the spa to prevent access by children.
